and **Self-Administrator®**

Airway Clearance System with
Force Multiplying Technology

*Chest Physiotherapy that **Works!***

Electro Flo® 5000

Airway Clearance System

*Breathe Easier Now for
Immediate Non-Invasive Relief*

- Quickly and Effectively Breaks Up Lung Congestion
- Tirelessly Mimics Hand Clapping
- Delivers Deep, Smooth Pulses with 30 Power/Frequency Settings Available to Customize Treatments
- Clinically Validated Greater Sputum Production than Two Comparative CPT Treatments
- Patients Report a Greater Ability to Exercise, Fewer Respiratory Infections and Reduced Hospitalizations

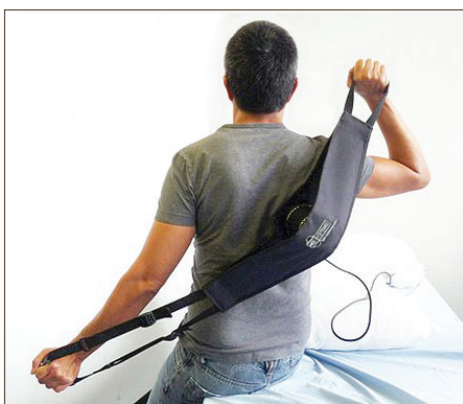

User-Friendly

- Plugs into a Standard 3-Prong 120VAC, 50/60 Hz Electrical Receptacle
- Anyone with Manual Dexterity and Weighing 50+ lbs Can Perform CPT Unassisted Anywhere on the Lobes
- Easy to Operate, Convenient and Time Saving
- Easy to Clean

Anyone with airway congestion benefits using the EF System!

- ALS
 - Bronchiectasis
 - Bronchitis
 - Cerebral Palsy
 - COPD
 - Cystic Fibrosis

 - Guillain-Barre Syndrome
 - Multiple Sclerosis
 - Muscular Dystrophy
 - Myasthenia Gravis
 - Occupational Lung Disease
 - Pneumonia or Atelectasis
 - Pulmonary Edema
- ... and Other Respiratory Diseases*

"The Electro Flo helps me clear my lungs like no other device."

D. D., California

"This is the most effective lung clearance device I've ever used. It's awesome."

K. C., Minnesota

"I'm a 30 year veteran in the field of respiratory care. We use the Electro Flo 5000 in the Pediatric Intensive Care Unit and my Pulmonary Unit. The RNs and RT Staff find these units are a life saver when it comes to performing CPT."

James Woods, RRT/RCP, Ohio

Travels with Ease

- Portable and Lightweight (less than 6lbs)
- Fits Under an Airline Seat
- Operate from any Vehicle with an Approved Power Inverter

Safe and Reliable

- Prescribed by Physicians
- Developed Using Science, Technology, Electronics and Math
